PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate, majoring in Network Technology, from Batangas State University – The National Engineering University, ARASOF-Nasugbu. Equipped with hands-on experience in software development and software testing through academic projects and On-the-Job Training. Proficient in Spring Boot, Angular, MySQL, MongoDB, and web development technologies. Seeking an entry-level IT opportunity to apply technical knowledge, problem-solving abilities, and collaborative skills while contributing to organizational goals and continuing professional growth.

TECHNICAL SKILLS

- **Languages:** Java, PHP, JavaScript, HTML, CSS
- **Frameworks:** Angular, Spring Boot, Laravel, Bootstrap
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Docker, AI-Assisted Tools
- **Others:** REST API, API Integration, Software Testing

PROJECTS

HR System Application (On-the-Job Training)

- Assisted in the development of a Human Resource Management System to streamline employee record management and support efficient data processing.

Pet Project – AI Chatbot

- Contributed to the development of an AI chatbot application, supporting chatbot functionality and user interactions.

ElevatedEd: Teacher Position Reclassification and Digital Assessment Platform for DepEd (Capstone Project)

- Developed a web-based platform for teacher position reclassification and digital assessment, enabling efficient management of evaluation records and reports.

Petcare: RFID-Integrated Veterinary Management System

- Developed an RFID-enabled veterinary management system that improved pet identification and simplified the management of pet records.

Student Portal Management System

- Developed a student portal application that centralized academic and personal records, providing easier access to student information.
